Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a method of operating a converting module that can be used in a touchpad having a touch input transducer and whose surface of the touchpad is divided into at least four regions and each region is associated with a unique range of analog transduced voltages produced by the touch input transducer; the method comprises, inter alia, a comparing step that compares an analog voltage to a threshold voltage and generates a comparison signal based on the threshold voltage being equal to a saturation voltage of the comparator, a subtracting step that subtracts the threshold voltage from the analog comparator if the comparison result indicates that the analog voltage is greater than the threshold voltage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peguy JeanPierre whose telephone number is (571) 272-1803. The examiner fax phone number is (571) 273-1803.
